This is truly a one-of-a-kind release. I can't really believe that I made this wine, but it was so much fun! The grapes came from a tiny old vineyard in the Napa Valley . They were absolutely perfect for port when they were harvested, sweet, just starting to raisin with a fantastic flavor density. Port is truly “made-in-the-vineyard” and this one shows it big-time; beautifully balanced, with just the right sweetness level and enough tannin and fruit to bring fireworks to the end of any meal. The few people who have stopped by the winery and tried this, have fallen in love.
