

Cabernet Sauvignon 2020

North Coast

Lab Stats: Alcohol - 13.7% T.A - 5.7g/liter pH - 3.81 V.A. - .72 g/liter Residual Sugar - dry (3/10th%)

Kent Rasmussen Notes:

Cabernet Sauvignon is the Chrysler Building of the wine world. Magnificent, unique, shining, structured, yet wondrous in its finesse and dignity. Truly, Cabernet Sauvignon is a gift to the human race and an indication that, something or someone loves and respects us enough to give us a gift that makes life easy, joyful and fun. I have been privileged to make Cabernet Sauvignon every year since 1980. 41 vintages now! So many vintages,...so many wines, and honest truth, Cabernet is never a let-down. Many times, it has been my favorite-wine-of-the-vintage, never, ever, has it been a dud. The finest Cabernet Sauvignon grapes in the world come from California's North Coast (a few French people might have an argument with that—but they would be wrong) and it has been a privilege to spend a career fermenting those grapes into wine.

Our 2020 Ramsay Cabernet Sauvignon is, like so many past vintages, a wine that I am proud to to have made. It is clean, focused and refined in flavor and aroma. It shows the wonder of the Cabernet grape and will make you drool for more when you match it with great food.

I hope you enjoy drinking this wine as much as I have enjoyed making it.
